

PATRONSCAN OPERATING IN THIS VENUE

PATRONSCAN is a computer system which takes a scanned copy of the identification you present us with, checks your age and whether you are listed on our database of people who have been issued with an alert.

PATRONSCAN is used to help us achieve or aim to providing a safe and enjoyable environment for our customers, and where only those people who are admitted are of legal age and are unlikely to interrupt other customer's enjoyment

PATRONSCAN is voluntary. You are not obliged to permit us to scan your ID through PATRONSCAN, however, failing to provide us with your ID will limit our ability to approve your entry.

We may also refuse entry if you have been issued with a banning order or been issued another venue ban for particular offensive or criminal behaviour. Alert notices can be shared with other Venues using the PatronScan system.

By allowing us to capture your ID (scanning and retaining your details) you agree to that we can share this information with police, local authorities in the event of an incident. If you do not wish to have your ID scanned, then we reserve the right to refuse entry to this establishment.

This venue and its staff have a legal obligation to ensure that we do not serve alcohol to anyone under the age of 18 years.

To assist us in complying with these legal obligations, we may require you to produce Passport, Driving License, PASS ID or other National Identification, which may be processed through PATRONSCAN.

**Full terms and conditions are contained on our website
